Dear parents,

As you will be aware, the number of Covid cases in Gibraltar is rising, and as some of you know, we have had several cases within Loreto too. I am therefore writing to reassure you that we are in constant contact with the Contact Tracing Bureau and taking advice on an almost daily basis, while following all their social and sanitary protocols to the letter.

The current CTB advice is that children under the age of 18 do not need to isolate if they have been in contact with a positive case. This means that even if someone in your child's class should happen to test positive, you may still send them in to school, **provided they have no Covid symptoms**.

However, if they **do** have any Covid symptoms such as temperature, persistent cough, sore throat or a bad tummy **please do not send them in to school until they have had a PCR test**. In Gibraltar, these can be arranged by calling 111.

I will be in touch again should the situation or the advice change, but in the meantime, please rest assured that we are doing all we can to keep Loreto a safe, sanitary and happy environment for our children and staff.

Thank you for your cooperation and very kind regards,

Kind regards
